**For Immediate Release**

## **Krack Partners with Duncan Supply Company**

**Bridgeton, MO - April 1, 2019** - Krack, a Hussmann Corporation brand ([www.krack.com](http://www.krack.com)) is pleased to announce that they have entered into a strategic agreement with Duncan Supply Company Inc. which makes them an authorized Krack equipment wholesaler. Krack is confident that this partnership will provide better service for customers within the region by offering the full line of Krack quality products, expertise and local stock for quicker deliveries to support the mechanical contractor community.

Since inception in 1936, Duncan Supply Company has taken pride in delivering the highest quality and best value to their customers. This philosophy has helped them grow into an industry leader, distributing a wide range of refrigeration, air conditioning, heating equipment, and Food Service parts and accessories to customers, throughout central Indiana and Eastern Illinois. As their many satisfied customers have come to know, Duncan Supply offers products and services contractors can depend on as a convenient, cost-effective partnership that help their business succeed.

Contractors can contact Duncan Supply Company direct for any inquiries about Krack Refrigeration products ([www.duncansupply.com](http://www.duncansupply.com)).

### **About Krack**

Krack, a Hussmann Corporation brand, has been committed to delivering products with design leadership and innovation that provide customer-focused solutions for all your commercial refrigeration needs for more than 85 years.

Krack is a world leader in the development, manufacture and sale of commercial coils, condensers, condensing units and process cooling equipment. Customers served by Krack include the retail food industry, commercial refrigeration contractors, refrigeration contractors using halocarbon, HVAC contractors, refrigeration OEMs, process cooling businesses, food and beverage manufacturers, air solutions manufacturers, walk-in cooler and fixture manufacturers and other businesses requiring commercial refrigeration equipment.
