## **Krack Selling Industrial Refrigeration Operations to SGS Refrigeration Inc.**

**Bridgeton, Missouri** - Krack announced today that it has sold the assets of its Krack industrial business to SGS Refrigeration Inc. SGS will sell the products it is acquiring under a new SGS / Krack name in the industrial marketplace.

With this transaction, Krack retains ownership of its commercial business; such as coils, condensers, condensing units and custom engineered products using halogenated and similar refrigerants. Krack will continue to serve commercial customers through its normal channels without disruption.

Terms of the sale were not disclosed.

“This sale is an important step for Krack,” said Chuck Previ, Director of Sales. “It allows us to focus our efforts on serving existing and new customers in the commercial refrigeration market and provides the industrial business an opportunity to grow under very capable leadership. We look forward to working with SGS on those opportunities in the market where customers would benefit from both of our product lines.”
