KRACK By HUSSMANN

EVOLVE A2L

C-Series A2L

LARGE AIR-COOLED OUTDOOR CONDENSING UNIT

ADVANTAGES

- A2Ls are synthetic, mildly flammable refrigerants that meet low GWP regulatory requirements and offer the greatest ease of use for technicians compared to other solutions
- Variety of compressors available, including Copeland Discus and Bitzer Ecoline options, offering a high degree of customization with published AWEF ratings
- Wide capacity range of configurations including single compressor, dual compressor parallel, and dual compressor dual circuit models in 1 to 8 fan sizes

CD-22

KEY FEATURES

- Compressors are factory balanced and rigid mounted to reduce risk of line fatigue failure and vibration related leaks
- High-efficiency fan motors and blade design
- Amply sized receivers are sized to hold condenser flooding charge, evaporator charge and 100 ft (30.5 m) of liquid line
- Low and medium temperature application units available in all sizes
- Corrosion-resistant coil coating option available
- Optional suction accumulator, suction filter, oil separator, cylinder unloader, and electrical disconnect switches
- Available as hurricane-rated units
- DOE/NRCan compliant models available in every size configuration as well as Title 24 compliant models

C-Series A2L Large Air-Cooled Outdoor Condensing Unit

SPECIFICATIONS

Model	C-Series A2L
Available Refrigerant Configurations	A2L (R-454A or R-454C)
Supply Power	208–230 VAC / 3-phase / 60 Hz 460 VAC / 3-phase / 60 Hz

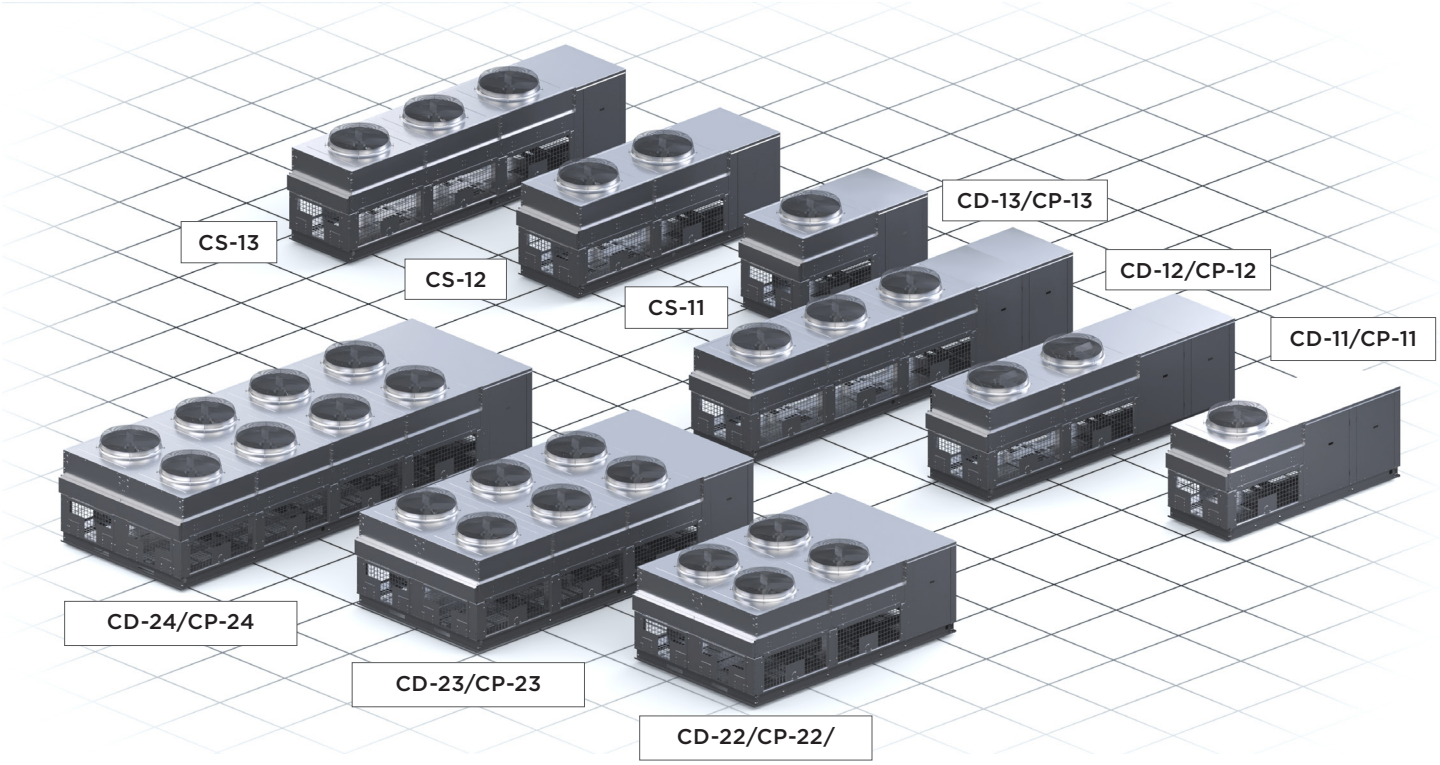

For information about unit-specific compressors, electrical data, connection sizes, and other detailed specifications, please consult the unit datasheet.

DIMENSIONS

There are a wide variety of sizes and configurations. Detailed dimensional information for specific units can be found on the unit datasheet. Visual representations of the entire product line are shown below.

NOTE: Use Krack's technical datasheets to get detailed dimensions for all store layout purposes.

We reserve the right to change or revise specifications and product design in connection with any feature of our products. Such changes do not entitle the buyer to corresponding changes, improvements, additions, or replacements for equipment previously sold or shipped.
